

PLEASE NOTE

ADDENDUM.

This is a correction and update to the Apple Elite manual.

ALL OWNERS. SAVE ROUTINE.

1. When Docked, press 'L' (not I) to initialize.
2. Select Save by pressing 2.
3. Enter Commanders' Name.
4. Replace Elite Master Disk with a DOS 3.3. formatted and initialized Data Disk.
5. Press Return.
6. Wait until Save completed.
7. Replace Data Disk with 'Elite' Disk.
8. Continue game.

APPLE II+ OWNERS.

Please note: Since the Apple II+ is only an UPPER case machine and Elite is programmed in both UPPER and lower case there will be corruption on the majority of INFORMATION screens. This can be overcome as follows:-

1. FREEZE game by pressing "=" (equals).
2. Press "U" (upper/lower case toggle).
3. CONTINUE game by pressing "-" (minus).

On moving to another screen, all corruption will clear and the game will play normally.

With apologies from Firebird Licensees Inc.

We sincerely hope that this has not spoilt your pleasure and enjoyment of this game. Thank you for purchasing this Firebird product.
